PROFESSIONAL EXPERIENCE

Product Owner / Project Manager, 09/13 – Present **ESRI, Redlands, CA**

Manage large customer facing and strategic corporate projects using Agile and Waterfall methodologies. Manage program level initiatives to improve processes, margins, efficiencies and best practices.

Notable accomplishments:

- ✓ Manage custom training projects for DOD, state and federal government, public and private sector customers, domestically and internationally accounting for nearly \$1M in training revenue
- ✓ Product Owner developing a solution to restructure how software product training is delivered globally to nearly 300,000 customers annually
- ✓ Track and monitor revenue and manage P&L at a program level
- ✓ Mentor and train Project Coordinators on project management concepts and best practices

Project Manager, 01/12 – 02/13 **HEWLETT-PACKARD – PFIZER ACCOUNT, International**

Managed the planning, relocation, and installation through testing activities of a data center consolidation (DCC) project to reduce the Pfizer infrastructure from 19 data centers to four as part of a company merger/acquisition, over the course of 23 relocation events.

Notable accomplishments:

- ✓ Managed globally distributed teams to complete data center consolidations for six data centers in the United States (2) and Europe (4).
- ✓ Leveraged the Waterfall project management methodology to execute all phases of the consolidation.

- ✓ Led server migration events, directing technical teams through a carefully orchestrated process, to ensure all scheduled servers were relocated and tested within very strict deadlines.
- ✓ Ensured in-house technical teams worked in conjunction with 3rd party vendors, when outside support was required, to complete all milestones as scheduled.
- ✓ Identified risks and issues throughout the planning, executing and monitor and close project phases, and then developed mitigation plans to reach resolution.
- ✓ Successfully closed 23 project events, completely exiting four data centers through the migration of nearly 1000 physical and virtual servers.

Business and Government Customer Operations Manager, 12/08 – 01/12 **VERIZON WIRELESS, Warrendale, PA**

Managed multi-million dollar accounts, coordinating specialized teams to successfully meet every need of the customer.

Notable accomplishments:

- ✓ Created custom tailored solutions to match Verizon Wireless products and services to the customers' needs.
- ✓ Developed and chaired a customer loyalty project that reduced churn by 4.7% and increased contract renewal rate by 6% in 2011.
- ✓ To educate colleagues on innovative ways to improve department metrics, led sales and negotiation tactic seminars.
- ✓ As the subject matter expert for products, services and processes between 2010 and 2012, trained ten teams of 15-25 in customer service and technical support for national accounts.

Co-Founder/COO, 01/03 – 11/08 **REMLAB INC., Enon Valley, PA**

Managed the day to day business operations, facilitating the creation of new products and services to increase the company portfolio.

Notable accomplishments:

- ✓ In 2008 introduced new infrastructure technology solutions which resulted in a 63% decrease in operating costs.
- ✓ Restructured pricing and service options in 2007, based on market research, resulting in a 34% growth in profit.
- ✓ Utilizing a series of email and marketing campaigns in 2004, increased the customer base from 10,000 to 125,000 monthly subscribers.
- ✓ Designed and managed a business affiliate program which included more than 3000 retailers and partners.
- ✓ Managed dozens of product and service development projects which increased the company portfolio from one service to more than 20 between 2003 and 2008.
- ✓ Developed promotional material in collaboration with a contracted design team to market new products and services
- ✓ Managed a website re-design project based on the Color Theory to influence customers purchase decisions
